Concluzii și recomandări (2014–2017)

1. Discounturile peste 20% distrug profitul. Liniile de vânzare cu discount de peste 20% aduc 16% din vânzări, dar generează o pierdere de 135 mii $. La discounturi de peste 30%, marja medie este −48%. *Recomandare:* plafonarea discountului la 20%, cu aprobare specială pentru valori mai mari.

2. Furniture vinde mult, dar câștigă puțin. Categoria aduce 32% din vânzări, dar are o marjă de doar 2,5%, față de 17% la Technology și Office Supplies. Cauza principală sunt Tables și Bookcases, care sunt pe pierdere. *Recomandare:* revizuirea prețurilor și a discounturilor la aceste subcategorii.

3. Regiunea Central are cea mai mică marjă (7,9%), față de 14,9% în West. Texas este statul cu cea mai mare pierdere (−25.729 $). *Recomandare:* analiza politicii de discount din regiune.

4. Vânzările mari nu înseamnă profit. În 2017, 5 din top 10 produse după vânzări au fost pe pierdere. *Recomandare:* raportarea performanței după profit, nu doar după volum.
